ASEPSIS LOOP

Smarter laundry solutions

ASEPSIS
Aged Care Standard

Laundry **SORTED.**

CLEAN UP ON SAVINGS

Asepsis Loop unlocks savings and productivity gains in the laundry process. Drive down fixed and variable costs in both the laundry process and related labour costs.

With Asepsis Loop, say goodbye to:

- searching for and managing complaints about lost or misplaced laundry
- incomplete and inefficient wash and drying cycles
- wasted staff hours sorting laundry loads

REMOVE THE GUESSWORK

Thanks to the transparency of Asepsis Loop's real-time data, laundry-related complaints and resource leakage are things of the past. Track every garment (right down to keeping residents' socks paired) with real-time reporting every day.

Asepsis Loop records the wash status of every item, including number and date of each wash, lifting stakeholder satisfaction and assuring standards of patient or resident care and cleanliness.

A SMART SOLUTION THAT'S GREEN TOO

Asepsis Loop harnesses smart technology to deliver new efficiencies in the laundry process, management insights over essential facility resources (like towels, sheets and other linen) and confirmation of patient or resident care standards.

Find new peace of mind knowing resources are in the right place at the right time for optimal care while cementing your facility's green credentials by reducing water and energy overheads.

WASH DAY PAIN

Laundry rates 3rd highest on the list of concerns about services and fees in aged care concerns and the 7th highest overall*

* Inside the System: Aged Care Residents' Perspectives, Royal Commission into Aged Care Quality and Safety, October 2020.

7th HIGHEST Overall*

3rd HIGHEST Service & Fees

It all comes out in the wash

Introducing Asepsis Loop: the complete laundry solution for health and aged care settings. **It's a revolution.**

Asepsis Loop brings software smarts to solve age-old laundry problems and achieve new savings from existing equipment while improving reputation, satisfaction and documentation to support accreditation compliance .

A Software Revolution in the Laundry

TAG
Affix, sew or insert durable electronic tags, designed for multiple wash cycles, to garments and linen.

TRACK
Populate laundry inventory software linking tags to every garment and resident name.

SORT
Once washed and dried, scan and sort items by resident name.

REPORT
Use the web-based portal to build and download customised reports for real-time wash data by item, catetory or resident name.

YOUR TRUSTED PARTNER

Asepsis is a health care innovator. The Asepsis Loop System delivers the highest standards of hygiene and cleanliness in health and aged care. With many years of experience, Asepsis streamlines the processes and systems essential to well-run facilities.

Its integrated software solutions transform operations and processes in logistics, equipment and maintenance, human resources and more.

Visit **www.asepsis.com.au** for details.

FOR SMARTER LAUNDRY

Asepsis Loop is Software-as-a-Service. Backed by proven technologies, Asepsis Loop brings new control to laundry processes. The system comes complete with Windows hardware, radio frequency tag desktop reader and intuitive Asepsis Loop software.

TRAINING AND SUPPORT

We'll be with you at every step when rolling out Asepsis Loop with on-site training. Ongoing support is just a phone call away.

CYCLE AFTER CYCLE

Our web-based portal delivers new management insights and greater control over every laundry cycle and garment with real-time reporting. Customise reports for your facility to reduce resource leakage, manage specific complaints and prepare for accreditation.

ADD FUNCTIONALITY TO ASEPSIS LOOP

SMARTER LAUNDRY TROLLEYS

Embrace intuitive laundry sorting with Bluetooth-enabled trolley racks. Asepsis Loop's garment tags scan automatically to trigger an LED light above each owner's rack, making the final stage of the laundry cycle a breeze.

NO MORE LOST ITEMS

Combine a hand-held reader into Asepsis Loop for even more flexibility. Manage lost or misplaced laundry anywhere, anytime.

DISCREET WANDER MANAGEMENT

Asepsis Loop brings another layer of wander management to your facility to help maximise safety for residents. Garment tags can also be paired with door readers to trigger pager alerts based on individual profiles.

Request an Asepsis Loop demo or talk to us about your needs today.
